

Canon's Color Consistency Triumph

Winner of the 2024-2026 Most Color Consistent A4 Brand Award from Keypoint Intelligence

Color consistency led to increased uptime and reduced waste

Colors produced were most stable for entire length of testing

"Canon's A4 MFPs and printers produce more consistent color output than the competition. Whether it's for business graphics, photo images, or any other color output type, consistency is demanded for hardcopy documents. Whether in the office or at home, users will have the confidence in Canon's devices to deliver top-notch, repeatable color documents that result in less paper waste and more savings."

Pete Emory, DIRECTOR OF RESEARCH & LAB SERVICES U.S./ASIA AT KEYPOINT INTELLIGENCE
