

## uniFLOW Online 2024

2025 Pick Award

uniFLOW Online 2024 has won a Buyers Lab (BLI) 2025 Pick Award from Keypoint Intelligence thanks to its...

- Unified platform that simplifies print management and scan workflows for a streamlined user experience
- Comprehensive cost tracking through reports, budget controls, and custom cost center allocations
- Advanced scanning and intelligent capture for efficient digital workflows
- Seamless hybrid work support through its cloud-based environment
- Remote Device Access for real-time IT support from anywhere

"uniFLOW Online continues to stand out in the crowd as an essential tool for streamlining print management and scan workflows without the burden, which is why it has won a Pick Award for the seventh straight year," said Keith Haas, Analyst in Keypoint Intelligence's Workplace Group. "This award highlights uniFLOW Online's ability to simplify IT operations, bolster security, and drive cost efficiencies while seamlessly supporting today's hybrid work environments as businesses continue to shift toward cloud-first strategies."

The latest enhancements to uniFLOW Online further solidify its position as a leading cloud-based print and scan management solution. The newly introduced Remote Device Access feature allows IT teams to troubleshoot and manage supported Canon MFPs in real-time, reducing downtime, minimizing disruptions, and improving device availability. Expanded device support enhances flexibility for businesses with mixed fleets, ensuring a seamless experience across multiple brands. Enhanced security features, including password-less user accounts and multi-factor authentication, strengthen document protection while maintaining ease of use. High-resolution scanning, scheduled email reports, public space printing, and scan-to-any-email functionality offer more options for streamlined workflows. Deeper integrations with Microsoft SharePoint and iManage Cloud provide businesses in document-intensive industries with improved accessibility and collaboration tools, making information management more efficient.

“A key reason why uniFLOW Online receives such acclaim lies in its scalable nature, as it’s designed to be leveraged by organizations of all sizes,” said Jamie Bsales, Principal Analyst in Keypoint Intelligence’s Workplace Group. “SMBs benefit from easy deployment and minimal IT overhead, while enterprises gain centralized control and cost tracking for easier management. Such flexibility ensures any business gets tailored print and scan management, reducing IT complexity while supporting evolving workflows.”

## About Keypoint Intelligence

---

For over 60 years, clients in the digital imaging industry have relied on [Keypoint Intelligence](#) for independent hands-on testing, lab data, and extensive market research to drive their product and sales success. Keypoint Intelligence has been recognized as the industry’s most trusted resource for unbiased information, analysis, and awards due to decades of analyst experience. Customers have harnessed this mission-critical knowledge for strategic decision-making, daily sales enablement, and operational excellence to improve business goals and increase bottom lines. With a central focus on clients, Keypoint Intelligence continues to evolve as the industry changes by expanding offerings and updating methods, while intimately understanding and serving manufacturers’, channels’, and their customers’ transformation in the digital printing and imaging sector.

## About Smart Workplace Solution Pick Awards

---

Smart Workplace Solution Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including evaluation of key attributes such as features, usability, and value. Each product that passes its Keypoint Intelligence lab test earns a Highly Recommended or Recommended rating, with the best performers qualifying as Pick contenders.
