Canon uniFLOW Online

Outstanding Cloud Output Management Platform

Canon uniFLOW Online has won a Buyers Lab (BLI) 2023 Pick Award for Outstanding Cloud Output Management Platform from Keypoint Intelligence thanks to its…

- Outstanding fit for distributed working environments
- Broad device support for Canon and third-party hardware
- Various document security options to protect valuable information
- Powerful workflow designer to automate business processes
- Customizable print policies that can help change print behavior to reduce costs

"Canon uniFLOW Online is a high-end all-in-one platform that helps businesses handle print, scan, and device management tasks—a solution which in our eyes is very impressive," said Keith Haas, Analyst in Keypoint Intelligence's Office Group. "This cloud-based system eliminates the need for organizations to purchase, install, and administer multiple solutions at once, which is beneficial to teams trying to take on tasks as remote work is on the rise."

With security toward the top of everyone's mind when it comes to a solution's necessities, users can be put at ease with Canon uniFLOW Online's flexible user authentication and secure release functionality. The solution also provides businesses with complete control over their print and copy costs, thanks to its reporting and customizable policies that administrators can put in place, which can also help users reduce their environmental impact. On top of all this, a major plus seen within Canon uniFLOW Online is that it works with more than just Canon devices, as it supports devices produced by the major manufacturers as well as others.

"There is so much at play here with Canon uniFLOW Online, all of which can greatly improve how productive users are when completing tasks in the modern workplace,"

said Lee Davis, Senior Analyst in Keypoint Intelligence's Office Group. "This solution takes into account the needs of employees who work on-premises as well as those who work remotely, making Canon uniFLOW Online a flexible solution that has captured this award from Keypoint Intelligence five times in a row now."

About Keypoint Intelligence

For 60 years, clients in the digital imaging industry have relied on Keypoint Intelligence for independent hands-on testing, lab data, and extensive market research to drive their product and sales success. Keypoint Intelligence has been recognized as the industry's most trusted resource for unbiased information, analysis, and awards due to decades of analyst experience. Customers have harnessed this mission-critical knowledge for strategic decision-making, daily sales enablement, and operational excellence to improve business goals and increase bottom lines. With a central focus on clients, Keypoint Intelligence continues to evolve as the industry changes by expanding offerings and updating methods, while intimately understanding and serving manufacturers', channels', and their customers' transformation in the digital printing and imaging sector.

About BLI Smart Workplace Software Pick Awards

Buyers Lab Software Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including evaluation of key attributes such as features, usability, and value. Each product that passes its Keypoint Intelligence lab test earns a Platinum, Gold, Silver, or Bronze rating, with the best performers qualifying as Pick contenders.
